**Claiming Records**

If a record is created in the system on a solicitor’s behalf, an automated email will go out to the identified record holder email address to claim the record. You will need to login with that email address and associate the record with an entity account in order to manage the record.

1. Click on the Claim Records button in the automated email or navigate to onestop.md.gov and login using the email address.
a. If you have not created a OneStop account with the email address yet, you will need to first create your account using the Register button.

2. You can navigate to the Claim Records page by clicking the button in the automated email or selecting your name in the upper right corner and clicking Claim Records.

3. You will need to select an entity with which to associate the record. You can either select an existing entity you have created previously or you can choose to create a new entity.
   a. **PLEASE NOTE:** You must create an entity account to own the record that has been created. You can create a single generic entity to house all records you manage or you can create separate entities for each record you may own.
